

Rollins Tennis Archive

Madhav Khanal: Lead Programmer

Richard Stoiberer: CEO

Stella Fruijtier: Data Scientist/Aesthetics Lead

Project Recap

Build a simple full-stack application that organizes Rollins Tennis player bios, match results, and statistics.

- Store players, matches, and seasons using OOP structure
- Allow filtering/searching of players and matches
- Show useful team and individual statistics

The goal is to improve the existing Rollins Tennis statistics page by creating a cleaner, more organized system where all player information is easy to find in one place.

The screenshot shows the Rollins College Women's Tennis website. At the top is a navigation bar with the Rollins 'R' logo, a 'Menu' button, and a search icon. Below the navigation bar is a header for 'WOMEN'S TENNIS' with a 'More +' link. The main title is '2024-25 Women's Tennis Cumulative Statistics'. Below the title is a control bar with a 'View PDF' button and a 'Select a Season...' dropdown menu. There are two tabs: 'SEASON STATS' (which is active) and 'MATCH-BY-MATCH'. Under the 'SEASON STATS' tab, there are two sub-tabs: 'OVERALL' and 'CONFERENCE'. The 'Singles' section lists individual players with their names underlined: Abdulloeva, Amina; Eckstein, Sydney; Falster, Milla; Fruitier, Stella; Liu, Nancy; Mitrofanova, Nina; Sallick, Annie; Talbi, Amina; and Vlasova, Polina. At the bottom of the singles list are 'Total' and 'Percentage' rows. The 'Doubles Teams' section lists pairs of players with their names underlined: Falster, Milla / Fruitier, Stella; Falster, Milla / Liu, Nancy; Falster, Milla / Mitrofanova, Nina; Falster, Milla / Vlasova, Polina; Liu, Nancy / Fruitier, Stella; and Liu, Nancy / Vlasova, Polina.
